## CAREER OBJECTIVE

Driven and detail-oriented Full Stack Developer currently pursuing a B.Tech in Computer Science and Engineering. Experienced in building responsive web applications using React, JavaScript, and Firebase. Proven technical leadership as a Backend Project Lead, with a strong foundation in problem-solving, API integration, and database management. Eager to leverage full-stack skills to contribute to impactful projects in a dynamic tech environment.

## EXPERIENCE

### Neo tech Developer Club

#### Backend Project Lead (College ERP System)

Present

- Leading the backend development efforts for the college Enterprise Resource Planning (ERP) system, ensuring secure and efficient data flow.
- Designing and optimizing database schemas using MySQL to manage diverse university data sets.
- Collaborating with frontend developers to seamlessly integrate APIs and establish robust server-client communication.
- Mentoring junior club members in coding best practices and problem-solving techniques.

## EDUCATION

### Shri Rawatpura Sarkar University | Raipur, Chhattisgarh

#### Bachelor of Technology in Computer Science and Engineering (CSE) 2023 – 2027

## SKILLS

\* **Frontend Development** :- HTML5, CSS3, JavaScript (ES6+), React.js

\* **Backend & Databases** :- MySQL, Firebase, RESTful APIs

\***Tools** :- Git/GitHub, FireBase , Figma .

## PROJECTS

- **Krishii Kalyaan**

- **Tech :-** React.js, JavaScript, HTML/CSS, Firebase, APIs
- Developed a full-stack, responsive web application focused on providing agricultural solutions and resources.
- Integrated RESTful APIs to fetch dynamic data and ensure a seamless, interactive user experience.
- Configured Firebase for real-time database management and secure user authentication.

- **Karmphal**

- **Tech :-** React.js, MySQL, JavaScript, HTML/CSS
- Engineered a comprehensive web platform utilizing React for a dynamic frontend and MySQL for secure, relational data storage.
- Built modular and reusable UI components to optimize application load times and maintainability.
- Designed complex database queries to efficiently retrieve and display user-specific data.

- **Mindwell**

- **Tech :-** JavaScript, HTML/CSS, Firebase, APIs
  - Built an intuitive, user-centric application utilizing modern JavaScript for core logic and state management.
  - Integrated third-party APIs to extend application functionality and deliver dynamic content.
  - Leveraged Firebase for backend services, ensuring fast data retrieval and high application scalability.
-
